

RENTERS INSURANCE INFORMATION

While renter's insurance is optional, we HIGHLY RECOMMEND IT.

A renter's insurance policy can help cover damage or loss of personal property in case you are burglarized and in case a resident or guest breaks a window or does other damage to the property you are renting. A good policy should also cover when a guest accidentally hurts him/herself because of a hazard in your home. Renter's insurance provides the same kind of general personal property coverage and liability protection as a homeowner's policy.

Most insurance companies offer renter's insurance. You may be able to get it through the same company with whom you have car insurance and you may even save some money because you have more than one policy with that company. What you pay will depend on the coverage you select. Many agents can give you a quote over the phone, and you can use the internet to compare companies and their policies before you make a decision about what policy to buy.

While you are not required to carry a personal renter's insurance policy, it is highly recommended. Below are local reputable insurance agents that KMB works with regularly. Please reach out to them if you'd like a quote or more information.
